I. THE CHALDEAN ORDER AND THE THEORY OF HOURS

Classical Astromagick is rooted in the Hermetic axiom of cosmic correspondence (*"As above, so below; as within, so without"*). The succession of the heavens strictly follows the descending **Chaldean Order** of apparent orbital velocity as observed from Earth:

♄ Saturn → ♃ Jupiter → ♂ Mars → ☉ Sun → ♀ Venus → ☿ Mercury → ☽ Moon

> **Operative Principle of Rulership:** The 1st diurnal hour of each day is governed by the ruling planet of that day (Sunday = Sun, Monday = Moon, Tuesday = Mars, Wednesday = Mercury, Thursday = Jupiter, Friday = Venus, Saturday = Saturn). The 24 hours succeed each other continuously in this unbroken astral spiral.
